

1. GOLD STANDARD - CLIST

a. Kitting

- i. Lens tape on all lenses
- ii. Handset In Clear Polly
- iii. Manual*
- iv. OEM Charger
- v. OEM Battery
- vi. Original Box (good condition no tears or significant damage)
- vii. Inside label original or remade
- viii. Box label original or remade with UPC

b. Housing

- i. NO Gouges or Dents
- ii. No more than 5 minor scratches on housing (including battery door). Minor scratches are hardly visible to the naked eye and usually only seen if light is adjusted.
- iii. No wear marks on paint unless it is typical for certain model (i.e. grommet marks on adjacent housing) Wear marks are typically found on the backs of phones and are caused by setting the phone down repeatedly. The glossy finish is removed so when light is adjusted, it is easy to see the blemish.
- iv. Original OEM Plastics
- v. No missing components or pieces
- vi. Battery Door matches and fits

c. Lenses

- i. Main Lens – no more than five 3mm hairline scratches. Hairline scratches are seen in plain sight and do not require the adjustment to the light. Hairline scratches do not include insignificant abrasions on the lens when the light is adjusted to the phone. If any abrasion or group of abrasions makes the lens appear cloudy then the phone will be failed.
- ii. Caller ID Lens – no more than three 3mm hairline scratches. Hairline scratches are seen in plain sight and do not require the adjustment to the light. Hairline scratches do not include insignificant abrasions on the lens when the light is adjusted to the phone. If any abrasion or group of abrasions makes the lens appear cloudy then the phone will be failed.

d. Memory

- i. Call timer cleared
- ii. Life timer may have minutes
- iii. No Pix (other than OEM loaded)
- iv. No Contacts
- v. No Video
- vi. No Call History
- vii. Default Display Settings

e. Functionality – 100% fully working

- i. No missing components or pieces vital to phones functionality (i.e. Charging Port, ear jack)
- ii. LCD working not cracked
- iii. All keys are working without defect.

2. SILVER STANDARD - CLIST2

a. Kitting

- i. Lens tape on all lenses
- ii. Handset In Clear Polly
- iii. Manual Not Guaranteed
- iv. OEM Charger
- v. OEM Battery
- vi. Original Box (good condition no tears or significant damage)
- vii. Inside label original or remade
- viii. Box label original or remade with UPC

b. Housing

- i. No Gouges (Gouges are deep scratches or dents where the paint is cracked and reveals the plastic or metal beneath)
- ii. No more than 1 minor Dent. (A minor dent is a compressed area no greater than the size of a screw grommet. A minor dent does not show visible cracks in the paint revealing the plastic or metal beneath.
- iii. No more than 10 minor scratches on housing (including battery door). Minor scratches are hardly visible to the naked eye and usually only seen if light is adjusted.
- iv. No wear marks on paint unless it is typical for certain model (i.e. grommet marks on adjacent housing). Wear marks are typically found on the back and sides of phones and are caused by setting the phone down repeatedly. The glossy finish is removed so when light is adjusted, it is easy to see the blemish.
- v. Original OEM Plastics
- vi. No missing components or pieces
- vii. Battery Door matches and fits

c. Lenses

- i. Main Lens – no more than eight 5mm hairline scratches. Hairline scratches are seen in plain sight and do not require the adjustment to the light. Hairline scratches do not include insignificant abrasions on the lens when the light is adjusted to the phone. If any abrasion or group of abrasions makes the lens appear cloudy then the phone will be failed.
- ii. Caller ID Lens – no more than five 5mm hairline scratches. Hairline scratches are seen in plain sight and do not require the adjustment to the light. Hairline scratches do not include insignificant abrasions on the lens when the light is adjusted to the phone. If any abrasion or group of abrasions makes the lens appear cloudy then the phone will be failed.

d. Memory

- i. Call timer cleared
- ii. Life timer may have minutes
- iii. No Pix (other than OEM loaded)
- iv. No Contacts
- v. No Video
